## A B O U T   M E

I have 11+ years of professional experience in all aspects of design from traditional techniques, to 3-dimensional modeling, to production. I specialize in creating unique visualizations that have been used for company branding, marketing and production. I have experience in CAD design and industry standards that aid in a variety of projects with specific requirements.

I have held lead roles in professional work places where I have been responsible for maintaining and completing multiple projects simultaneously. I have experience with a variety of fabrication machinery in the production industry, as well as software that allows the completion of all production projects.

## E D U C A T I O N

**B.S. Degree / Media Arts and Animation**  
*Art Institute / Philadelphia, PA*  
2008

**Certificate / CADD**  
*James Forrest Tech Center / Leonardtown, MD*  
2005

## E X P E R I E N C E

### SCA Drafter / CAD Operator II

*BAE Systems / Lexington Park, MD / Dec. 2018 - Present*

Develop and maintain design requirements for 2-dimensional and 3-dimensional models according to standard practices, industrial standards, and engineering markups utilizing AutoCAD and SolidWorks. Support engineering staff, providing technical drawings for mechanical fabrications and assemblies, electrical wiring diagrams, block diagrams, and Rack Elevation drawings for support and distribution to various projects.

### Production Technician / Graphic Designer

*Barefoot Graphics / Lexington Park, MD / Feb. 2016 – Dec. 2018*

Responsible for achieving production requirements in both small and large format printing. Designed branding material from concept through production and installation. Generated new ideas with limited direction and varied internal client needs.

### Lead Graphic Designer / Production Technician

*Chesapeake Custom Embroidery / Lexington Park, MD / Oct. 2014 – Feb. 2016*

Maintained consistent use of graphic imagery in materials and other marketing outreach. Operated print machinery to achieve highest print quality with minimal scrap and high productivity. Produced high quality finished material in a timely and efficient manner.

### CNC Programmer / CAD Drafter

*Triton Metals Inc. / Hollywood, MD / Nov. 2012 – Sept. 2013*

Interpreted drawing markups and implemented drawing revisions provided by engineers. Created 3D part models and drawings in accordance with industry standards using AutoCAD and SolidWorks. Prepared and programmed finished parts to be laser cut on CNC machine for sheet metal fabrication.
